

CHIMNEY PIPE ESCUTCHEON PLATE FOR FIREPLACES

R225.00 - R285.00

ESCUTCHEON PLATE FOR CHIMNEY FLUE PIPES .

Choose between 4 different options.

CHIMNEY PIPE ESCUTCHEON PLATE | GALVANISED,

Flue pipe escutcheon plate (ceiling plate) used at flue exit points either below the ceiling or on both sides of the wall.

Designed for vertical walls and horizontal ceilings.

Please note, for 45 degree ceilings, a special ceiling plate should be used. Lava Fires can supply 45 degree plates on request.

Ceiling plates come in 4 diameters - \varnothing 170mm , \varnothing 200mm, \varnothing 250mm & \varnothing 300mm.

Diameter refers to the **inside diameter** of the ring which fits over the flue pipe.

Escutcheon plates used with the following open-fire fireplaces :

- **Half Hex** Fireplace (Diameter : \varnothing 170mm)
- **Lucy** Fireplace (Diameter : \varnothing 170mm)
- **650 Built in** Fireplace (Diameter: \varnothing 200mm)
- **750 Built in** Fireplace (Diameter : \varnothing 200mm)
- **850 Built in** Fireplace (Diameter : \varnothing 250mm)
- **1050 Built in** Fireplace (Diameter : \varnothing 300mm)
