

## SINGLE WALL T PIECE

**R639.00 - R1,157.00**

### **SINGLE WALL T PIECE,**

Imported from Europe and made of 304 mirror finish stainless steel.  
Each T-piece is supplied with a drain plug.

Use single wall T-piece at the bottom end of a straight single wall flue pipe for an external installation.

The opposite end of the T-piece is closed off with a drain plug (included) which is used to drain dirt that is trapped at the bottom of the pipe.

The 90 degree bend of the T would normally go through the wall into the fireplace.

A double insulated 90° bend on the other hand is used together with a double wall flue.  
Choose between our three basic diameters -  $\varnothing$ 130mm ,  $\varnothing$ 150mm and  $\varnothing$ 180mm.

## Dimensions

- Outside diameters :  $\varnothing$ 130mm |  $\varnothing$ 150mm |  $\varnothing$ 180mm
- Material : 304 polished stainless steel
